Professional Summary

Front-End Developer with 4+ years of experience building bilingual (Arabic/English) web applications with React, Next.js, TypeScript and Tailwind CSS. Contributed to Saudi Arabia's National Portal (my.gov.sa) and the SPOT startup–investor platform, focusing on RTL support, accessibility, SEO and performance. Designed and published an open-source design system on npm with 50+ components. Seeking a Front-End or Full-Stack role building scalable, user-centered products.

Work Experience

Front-End Developer — SharedTech

Riyadh, Saudi Arabia | 03/2024 – Present

- Developed front-end features for Saudi Arabia's National Portal (my.gov.sa) for the Digital Government Authority using Next.js, TypeScript and Tailwind CSS with full Arabic (RTL) and English support.
- Implemented accessibility features (font resizing, color inversion, skip-to-content) and SEO best practices across the National Portal.
- Built a tag-based cache revalidation API in Next.js to sync CMS content updates, secured with secret-key and origin validation.
- Built the SPOT startup–investor platform front end on a headless Drupal CMS, with real-time chat and notifications via Firebase.
- Delivered responsive web interfaces for client projects including Nadec, Bana and Muneer.

Front-End Developer & Team Lead — Osool Systems

Riyadh, Saudi Arabia | 07/2023 – 02/2024

- Led a technical team, assigning tasks and tracking delivery across company projects.
- Developed the front end of a Customer Relationship Management (CRM) system using React and RESTful APIs.
- Built Tickety, a responsive event ticketing website.
- Designed and developed the Osool Systems corporate website.

Front-End Developer Intern — SMT Technology

Riyadh, Saudi Arabia | Internship | 03/2023 – 06/2023

- Developed the front end of Maris, a cooperative training management system, using React.
- Integrated RESTful APIs and built responsive forms and data tables.

Personal Projects

Seera — Free bilingual ATS-friendly resume builder with live ATS scoring — seera.basilmyq.com (Next.js, Docker)

Amdlre Design System — Open-source npm package with 50+ themeable components (React 19, TypeScript, Tailwind CSS 4, Radix UI)

Env Vault — Self-hosted secrets vault with AES-256-GCM encryption and audit logging (Next.js 16, PostgreSQL, Drizzle ORM, Docker)

Mnam — Chalet and rest house booking platform with instant booking and owner dashboard (Next.js, TypeScript, Tailwind CSS)

Education

Diploma, Programming and Web Development

College of Telecom & Information — Riyadh, Saudi Arabia | 2023 | GPA: 4.93/5
